

AYYAPPA K B

Material Planner | Production Planning & Control (PPC) Engineer
ayyappa.eee.rymec@gmail.com | +91 8296213791

PROFESSIONAL SUMMARY

Material Planner / Production Planning & Control (PPC) Engineer with 1 year of experience in the NewSpace / Aerospace industry, along with a strong Electrical & Electronics Engineering foundation. Skilled in production planning, material planning, and inventory management using ERP systems (Oracle NetSuite, ERPNext), BOM management, Work Order planning, Purchase Requisitions (PR), and Material Requests (MR). Experienced in cross-functional coordination with Procurement, Stores, Production, and Quality teams, with a strong focus on ensuring material availability, improving planning efficiency, and supporting on-time production.

CORE COMPETENCIES

- Production Planning & Control (PPC) | Material Planning | Inventory Management
- ERP Systems: Oracle NetSuite, ERPNext | BOM Management | Work Order Planning
- Purchase Requisition (PR) & Material Request (MR) Processing | Stock Reconciliation
- Cross-functional Coordination: Procurement, Stores, Production & Quality
- AutoCAD | MATLAB | Python | HTML & CSS

PROFESSIONAL EXPERIENCE

Material Planner / PPC Engineer

1 Year

NewSpace / Aerospace Industry

- Handled material planning and production planning & control (PPC) for aerospace hardware builds, ensuring on-time material availability.
- Managed BOM creation and updates, Work Order planning, and processing of Purchase Requisitions (PR) and Material Requests (MR) in ERP systems (Oracle NetSuite, ERPNext).
- Coordinated with Procurement, Stores, Production, and Quality teams to resolve material shortages and align schedules.
- Monitored inventory levels and supported stock reconciliation to minimize production delays.

ACADEMIC PROJECT

Semi-Auto Grass Cutting and Pesticides Spraying System

2024 – 2025

Rao Bahadur Y. Mahabaleswarappa Engineering College

- Prepared BOM and coordinated procurement of mechanical, electrical, and control components to ensure timely material availability for build milestones.
- Designed a dual-function system using an ATmega328 microcontroller, ultrasonic sensors, and relay-controlled motors, programmed in Embedded C.

EDUCATION

B.Tech in Electrical and Electronics Engineering (EEE)

2022 – 2025 | CGPA: 8.82/10

Rao Bahadur Y. Mahabaleswarappa Engineering College

Diploma in Electrical and Electronics Engineering (EEE)

2019 – 2022 | Percentage: 77.37%

Sanjay Gandhi Polytechnic College
